 PRECIOSA | Traditional Czech Beads

TOYAMA

BRACELET MADE FROM PRECIOSA Tee™

PRECIOSA Tee™ is a new bead from the PRECIOSA Traditional Czech Beads™ brand. The axially symmetrical, flat „T” shaped bead with dimensions of 2 x 8 mm conforms with the current trend for mini beads and enables the application of an unlimited selection of surface finishes. The strung PRECIOSA Tee™ beads closely interlock and as such simplify the creation of varied 3-dimensional structures. Try working with this new Czech bead according to this tutorial by Kateřina Krausová.

Materials and tools:

PRECIOSA Tee™ (T)
 111 01 364; 2 x 8 mm;
 02010/29123 honey (A); 40x
 111 01 364; 2 x 8 mm;
 02010/14413 ivory (B); 28x
 111 01 364; 2 x 8 mm;
 02010/15726 purple (C); 14x

1 m of 0.38 mm nylon copper binding wire;
 1x ø 15 mm American fastening; 2x ø 8 mm rings, 0.8 mm thick; 2x ø 6 mm rings, 1 mm thick; 4x ø 5 mm rings
 snipping pliers, 2x flat nose, round or needle nose pliers; a soft A4 pad

Difficulty: **I**

Procedure:

Do the sewing on top of the soft pad.

The basic stitch:

Step 1
 Cut off about 1 m of wire, string 3x T and two 5 mm rings onto it in the following order: 1x T-A, 1x ring, 1x T-B, 1x ring and 1x T-A and move them to the middle of the wire. Hold one end of the wire in your left hand and the other in your right hand. String a fourth T-B bead and cross the wire in it. Straighten the beads according to the illustrative photograph and carefully tighten the wire (fig. no. 1).

Step 2
 Further string 1x T-A onto the right-hand wire and 1x T-A onto the left-hand wire. String 1x T-B and once again cross the wires in it. Straighten the beads according to the illustrative photograph and carefully tighten the wire (fig. no. 2).

Step 3
 Repeat this procedure to make the necessary number of stitches (a total of 10) in the same color combination. Make sure that the beads are correctly oriented. Create a color accent in the central section by changing the color scheme for seven stitches. String the side T-C and the central T-A in the same color.

Then return to the former color scheme (10x), fig. no. 3.

Step 4
 In the last stitch, intersperse the T with two 5 mm rings again and sew up the bracelet so that you return to the previous T-A beads after crossing in the last T-B bead and tie a double knot. Further tighten the wires in the opposite direction of the stringing of the bracelet and cut them off (fig. nos. 4, 5).

Step 5
 Connect the two rings at the end of the bracelet with one larger ring (ø 8 mm), fig. no. 6.

Complete the bracelet by assembling an American fastening or any other type of fastening with an intermediate ring (ø 6 mm), fig. no. 7.

The overall length of the bracelet will be ca 18 cm. It is possible to add various types of hypoallergenic or stainless steel chains to the bracelet or to create necklace (fig. nos. 8, 9).
